Name of Submission/RFC/RTF/FTF Process: Financial Industry Business Ontology (FIBO) Foundations RFC

Primary Contact for this Submission: Mike Bennett, EDM Council
(mbennett@edmcouncil.org)

Primary Specification:

Assigned Acronym: EDMC-FIBO/FND

Title: Financial Industry Business Ontology (FIBO) Foundations Specification

Doc Number: finance/2013-08-01

Description: FIBO Foundations specification document.

Normative?: Yes

Report from RTF/FTFs: N/A

Additional Documents:

Errata to Primary Specification and Machine Readable Files

Title: Errata to Financial Industry Business Ontology (FIBO) Foundations Specification and accompanying machine readable files

Doc Number: finance/2013-09-04

Description: This errata file describes all of the changes made to all documents and electronic files that comprise the FIBO Foundations Request for Comments (RFC) submission.

Normative?: Yes

Revised Primary Specification without change bars:

Title: Financial Industry Business Ontology (FIBO) Foundations Specification

Doc Number: finance/2013-09-02

Description: FIBO Foundations specification document as amended.

Normative?: Yes

URL: <http://www.omg.org/spec/EDMC-FIBO/FND/PDF>

Revised Primary Specification with change bars:

Title: Document with change bars of the Financial Industry Business Ontology (FIBO) Foundations Specification

Doc Number: finance/2013-09-03

Description: FIBO Foundations specification document as amended, with change bars.

Revised Inventory File (this document):

Title: Revised inventory file for the FIBO-Foundations submission

Doc Number: finance/2013-09-05

Description: This inventory file represents all documents and electronic files that comprise the FIBO Foundations Request for Comments (RFC) submission, amended as described in the Errata file finance/2013-05-14.

II. UML XMI Files (finance/2013-09-06)

This zip file contains the normative UML XMI files for the FIBO Foundations Specification, for the UML model files with the ODM Profiles for RDF and OWL applied, organized alphabetically by module.

In addition, certain UML XMI files are included for reference only and are not normative. These are needed in order for the UML XMI files to have resolvable references to the UML XMI renditions of publicly available ontologies not included with this specification (Dublin Core, SKOS), and UML XMI renditions of ODM libraries and profiles.

The URIs for the FIBO Specification UML XMI files are different to those used in the OWL or ODM XMI in that these do not reflect the “module” URI fragment.

These are:

IV. Visual Ontology Modeler (VOM) / MagicDraw Model Files (finance/2013-08-06)

The VOM/MagicDraw models provided with the submission support the anticipated changes needed in ODM 1.1 to support OWL 2 and RDF 1.1. These are informative, and as such, a detailed description of the contents is not provided here. Architecture board members who would like to review these in MagicDraw are asked to contact Ms. Elisa Kendall (ekendall@thematix.com) for the plug-in and requisite libraries, including those needed for Dublin Core, SKOS, and the Specification Metadata.

The .zip archive identified below contains two separate sets of VOM project files (identified by virtue of the fact that these are contained in two separate .zip archive files within the archive identified below). A “readme” file is also included in the archive file, explaining the reason for the inclusion of two sets of VOM files and the distinction between them.
